in Blessing Mabunda

I'm a graduate in computer science from University of Limpopo with a passion for all things related to statistics. I have a solid understanding of linear regression concepts, including assumptions model fitting,interpretation of coefficients, and diagnostic techniques.Competence in statistical software packages like SAS, excel..
Understanding in interpreting the results of regression analysis effectively, including understanding the significance of predictors, assessing model fit, and identifying potential issues like multicollinearity.

💼 PROFESSIONAL EXPERIENCE

I was tutoring students in Computer Networks(dealing with Topologies,Subnetting, protocols,etc.. and also in Artificially Intelligence (dealing with Turing test, Unifications, Financial advice, etc), Tutor/Mentor

**Translated client ideas and project requirements into compelling visual designs that effectively communicated the intended message. •Designed logos, marketing collateral, and other materials to enhance brand recognition and market presence,
Graphic Designer, Using Adobe illustrator, Photoshop**

🎓 EDUCATION

2017	**Matric, Nkwangulatilo Education Centre**	Giyani, South Africa
2018 – 2023	**Bachelor in Mathematics (Majors in Computer science & Statistics), University of Limpopo**	

🌐 LANGUAGES

English	● ● ● ● ●	Xitsonga	● ● ● ● ●

🧩 TECHNICAL SKILLS

SAS & Excel • HTML & CSS • SQL • C++

Computer Network protocols (- TCP/IP: The most widely used protocol suite for networking, which includes protocols such as HTTP, FTP, and SMTP. (TCP, UDP , DHCP ,DNS ,BGP , ARP))

Cisco Packet Tracer

⬙ SOFT SKILLS

Problem Solving, Team Work, Time Management, Excellent Communication Skills, Analytical and Critical Thinking, Adaptability
